F-503 G

GUARANTEED ANALYSIS & SPECIFICATIONS

Boron (B), weight %	2.40%
Copper (Cu), weight %	2.40%
Iron (Fe), weight %	14.40%
Manganese (Mn), weight %	6.00%
Molybdenum (Mo), weight %	0.06%
Zinc (Zn), weight %	5.60%
Bulk Density, lbs. per cubic foot	78
Particle Size	90% - 6 + 16 Mesh
Physical Appearance	Dark Gray Granules

PACKAGE & SHIPPING INFORMATION

Bulk or 50 pound multiwall paper bags with PE liner	Plant location: Walnut Ridge, AR
---	----------------------------------

AGRONOMIC CONSIDERATIONS

A granulated homogenous nutrient product designed for general purpose use on turf, sod crops, vegetables, row crops, and tree fruits. Residual acidity in the granule promotes long-term availability of contained nutrients. This product is not approved for use in potting media.

GENERAL RECOMMENDATIONS

Use as an ingredient of a bulk blend at a rate of 10 to 100 pounds per ton depending on total materials to be applied on an acre basis.

MANUFACTURING CONSIDERATIONS

Normal bulk blending procedures.

WARNING

THIS PRODUCT CONTAINS SOLUBLE SULFATES THAT WILL CAUSE STAINING ON SIDEWALKS AND SWIMMING POOLS.
